PARINGA INCENTIVE

Every lot number will be placed in a container, at the completion of the sale, two lot numbers will be drawn out.

Each will receive 10 megalitres of temporary water (If you can't use it, you can sell it). Valued at \$600 per megalitre at time of going to print.

FROM THE AUCTIONEER

It is with great pride and pleasure that DLS will auction the 4th and Final Stage Complete Dispersal Sale for one of the Holstein Breeds longest established and indeed most successful prefixes ever! Yes, 'Paringa' has certainly achieved all and more than the founder could have ever dreamt. As you will read through these pages.

Paringa exhibited their first Royal Champion back at Melbourne in 1962 and this year 2019 exhibited a Champion and bred two Reserves at International Dairy Week, I call that standing the test of time!

As I talk to Dairymen who were at the Paringa Milking Herd Dispersal Sale in 2017 the comment always is – "What a tremendously milky herd". Paringa have held that same reputation for more than 70 years and today you have the wonderful opportunity to buy the next generation.

The heifers will present in tremendous form with many selling joined to sexed semen.

We are confident there will be many success stories of heifers selling from this sale and wish you well with your selections.

On behalf of the Pedigree Dairy Industry I congratulate and thank all involved with Paringa for their amazing accomplishments and contribution down through the decades and know the name 'Paringa' will long continue.

Looking forward to your company sale day.

Brian Leslie
Auctioneer

FOREWORD

I would like to welcome you, to Paringa's History 4th and Final Stage Dispersal Sale.

This day comes with a heavy heart, I knew from a little girl, that I wanted to spend my life with cows. I am extremely proud of the PARINGA name. I do believe it will live on, through the proven cow families, that people have bought into, over the numerous sales we have conducted over many decades. I have had so many good reports, on Paringa cattle, from recent sales, if you follow Paringa Holsteins face book page, you will know what I am talking about. A huge thank you, to Courtney Buchanan, for making Paringa Holstein Facebook a reality.

I want to pay tribute, to the incredible contribution, made by my Dad, Mum and brother Bill, to Paringa. My sister Joan, for her continued support of me. To my own children for their help, while they were at Paringa, and lastly to Jamie, since he became a full time dairy farmer 3 years ago, he has been such a great help, and so understanding. Thank you!

I have been trying to get around a lot of clients, visiting their herds, if I haven't managed to get to you yet, I am still trying. Have seen some great herds, have seen some wonderful farms, some incredibly keen kids, which is just so good. Bedrooms covered in cow pictures and ribbons hanging up. Believe me, there is a bright future for our industry, it has turned.

The heifers today present in wonderful form, ready to go and do the best they can, for their new owners. I look forward to following their progress. If you read some of the stories in the Paringa's Foundation section, you just never know when, you're buying that Super Matron, she could easily be here today with the Proven Family backgrounds.

There are heifers selling today, to fit the commercial needs, and there are heifers of the highest type (already 2 have been Champions at IDW and Victorian Winter Fair), heifers backed by generations of high production, SBC, STP, longevity and most of all PROVEN COW FAMILIES some for 60 and 70 years. They are by some of the breed's best sires, and incalf, to again, some of the breed's best sires.

We had a bit of a disappointing run with the first round of AI, we used 100% sexed semen, King Doc, Tatoo, Doorman, Rager, second round we used sexed and conventional Tatoo, and sexed and conventional Pharo. Do not blame anyone, just one of those things.

I sincerely thank everyone who has bought at Paringa, whether it was females or males, my clientele mean the world to me. THANK YOU!

The lasting and newer, friendships made over my lifetime, in Friesians/Holsteins I will treasure forever. My door will always be open to any of you, would love to see you.

For The Final Time:

The Paringa/Brian Leslie partnership, have staged a minimum of 10 Sales over the decades. Brian was a teenager, when he commenced his auctioneering. He commenced with G & N, then Daryl Brown and Brian partnered in Brown & Leslie, then moved onto Elders, then DLS was formed. I have always said Brian's memory and knowledge, of any breed of dairy cow, anywhere in the world, combined with his Auctioneering ability, would have to be unequalled. I thank Brian, and his staff, for their professionalism. While on professionalism, I give a big thank you to Ian Almond, and his staff, at Willprint, Shepparton. No task ever seemed too big!

PARINGA'S FOUNDATION

The following cows, are the cows that proved they were Brood Cows, their contribution to Paringa and the Holstein breed has been significant. These families are all still going strong today. I have picked these cows, only because of the amount of Excellent descendants they have created. Would just like to make mention, of some other foundation cows at Paringa, that have had an influence as well.

Tahora Linmack Licorice VG88 ImpNZ as an 8 year old. STP. Has 4 EX descendants in Australia, no doubt left her legacy in NZ as well.

Kingston Princess Grace G78 "G" Family Has 3 EX descendants.

Pebiam Royal Davina GP80 only ever had 1 daughter."Z" Family Has 6 EX descendants

Gudjiwa Majestic Ambrosine GP84 SBC "A" Family Has 8 EX descendants

Murribrook Tab Toni EX-5E 5 SBC "O" Family Has 4 EX descendants, without doubt the most famous being Paringa Fever Opa.

Leven Valley Juror Shamrock EX90-1E STP 1xEP, Life(4) 2 direct daughters EX

Dalrossie Showbelle Posch VG88 5SBC "P" Family 2 EX descendants.

Avonlea Hilltopper Christy VG87 "K" Family 1 EX descendant.

Altagen Mark Windy VG89 Imp-ET Can "W" Family 1 EX descendant.

"F" Family founded in 1954 with Holland Hitje, prior to classification.

Dad bought her in 1954 off J. Schweers.

Hitje had 10 heifers and 4 bulls in her lifetime, remembering well before ET.

Hitje's great, great, great, great grand daughter is the highest ever 305 days litre cow in Paringa's history. Paringa Garter Faux VG86 17,085 litres, with 85,669 litres in 4 and half lactations, when Paringa dispersed. Faux has a daughter selling today in Paringa Beemer Foxie.

Hitje has created 26 EX descendants.

"S" Family founded in 1955 with Craigmere Sunflower, prior to classification.

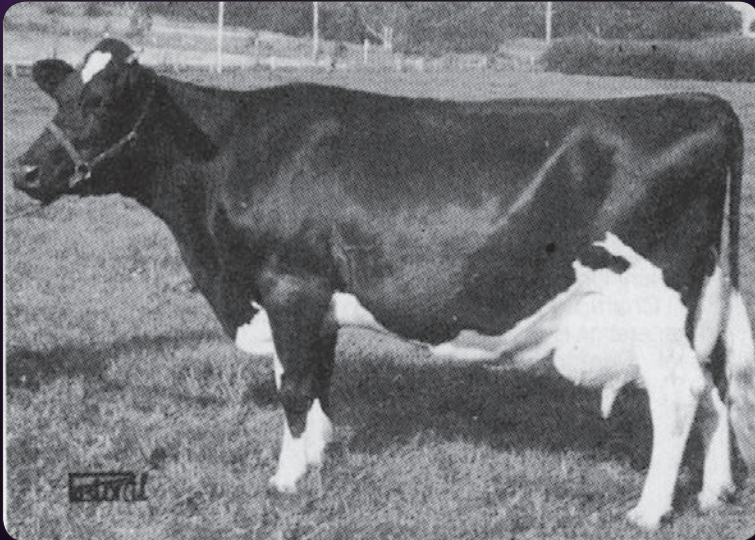

Dad bought her in 1955 off Bruce Kilpatrick, Craigmere Friesians, from Mernda, Vic.

Sunflower had 5 daughters, one of which was the first Friesian to ever produce over 1,000 lbs. B.Fat in Victoria.

Hullabaloo Bolton Sundae EX91 Champion cow Victorian Winter Fair for Clydevale. Equal top price of \$17,000 at our stage 1 dispersal Paringa Aftershock Stacey VG87 also owned by Clydevale are both descendants. Through her progeny, has created 137 EX descendants.

PARINGA'S FOUNDATION

"B" Family founded in 1963 with Brundee Buttercup Pride, VG85

Dad bought her in 1963 off V.J. Lamond, Brundee Friesians, from Numbaa, NSW

Buttercup had 7 daughters and 4 sons prior to ET. This family have done so well, for many studs around Australia, Fairvale being one.

Butter, along with her great grand daughter Kriss Butter EX have both been Champion Cows at Melbourne Royal, as well as 5 direct generations winning their class.

Reserve Champion Cow Victorian Winter Fair 2017 and 2019 Glenunga Wind Butterbrook, for Avonlea is a Butter. Butter family have seen production records and sale records created. Through her progeny, has created 97 EX descendants.

"M" Family founded in 1963 with Craigmores Marlene, GP81, 6SBC

I remember going with Dad on a hot summers day in January 1964 to Leo Beyer, Seven Oaks Friesians, from Research, Vic. We already had an Ingolston Squire daughter of Marlene's, in Craigmores Marilyn, so Dad was on a mission. Leo owned Craigmores Marlene and Ingolston Squire, both in poor condition.

We came home with both, Marlene and Squire. Marlene incalf to Squire again, that mating produced Paringa Marlene, as well as her Squire calf, Seven Oaks Amanda. He also purchased a 2nd Squire daughter Craigmores Royal Marlene off Bruce Kilpatrick. This gave us 4 full sisters. Through her progeny, has created 106 EX descendants.

PARINGA'S FOUNDATION

"D" Family founded in 1964 with Seven Oaks Dairy Duchess, GP82, 4SBC

It was the same hot summers day in January 1964 (as above the M family), we went to Seven Oaks Friesians, Dairy Duchess was a calf, little did we know we were buying 2 of our great foundations that very day, the D & M family. Dairy Duchess made into a wonderful brood cow, prior to ET.

At one point this family had the most generations of EX and VG in Australia. Her great, great grand daughter "Ding", who was purchased by Lengora, in the middle of tough era, 1977 for \$700. This era saw people shooting cows, and putting them in big pits, as they were worth nothing. The Dings made Lengora famous, Bill told me that himself.

Through the progeny of this little calf Dairy Duchess, has created an amazing 272 EX descendants.

"E" Family founded in 1962 with Brundee Segis Sadie 4th VG87, 1SBC, then followed on with her dam Brundee Segis Sadie 2nd, prior to classification, and another daughter in Brundee Segis Sadie 6th GP82, 1SBC in 1964

Dad gave me the pick of the calves, for all my help, I picked Sadie 4th, and VJ also gave me Sadie 6th. Sadie 4th's son sold for an Australasian record price, of \$5,750, then Shona also sold for an Australasian record price for a beef or dairy cow, at \$36,000. Sadie 4th had 5 daughters and 4 sons, Sadie 6th had 5 daughters and 3 sons.

This family have had numerous high achievers around the country. I guess Shona is the most famous. So Sadie 2nd being the matron, she has created 192 EX descendants.

PARINGA'S FOUNDATION

"Q" Family founded in 1966 with Brundee R. E. Quality VG88, and her daughter Brundee R. E. Quality 2nd GP82

Both this dam and daughter were purchased of V.J. Lamond of Brundee Friesians, Numbaa NSW. I absolutely idolised V.J. This is a family of quiet achievers. They have produced 3 Reserve All-Australians.

Paringa Cosmonaut Quinna was purchased by my good friends Russell and Kerry Batey. Russell took to the show scene, and Quinna went to many shows, rarely getting beaten. She also became the highest ever production cow for the Bateys.

Quality has created through her progeny 22 EX descendants.

"C" Family founded in 1966 with Corhan Chatsworth Chrysanthemum VG87 1 SBC

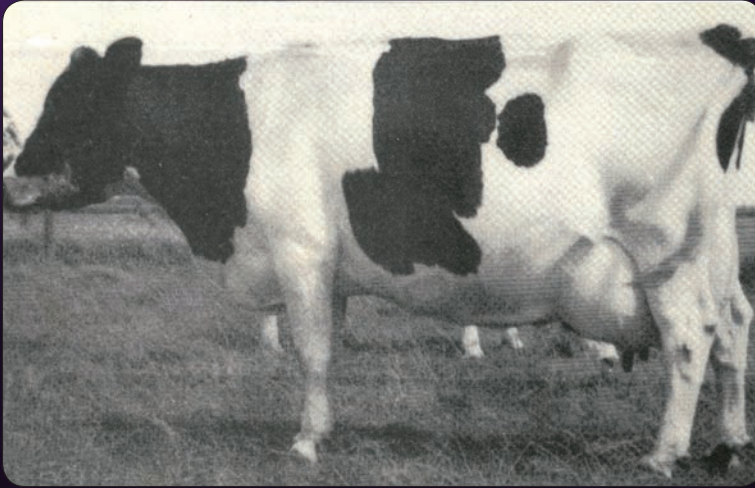

Dad and I headed off to Charlie Jager's Corhan annual sale, in Lilydale, Vic. This Chrysanthemum heifer with her amazing udder, was in the sale.

She had beaten our unbeaten Paringa Tassie Buttergirl at the Yarra Glen show the previous week. Needless to say we took her home, for \$1800, top price of the sale and the most money Dad had ever paid for an animal. We never ever regretted that day.

One of her most famous descendants is Memory Court Critic Cassy EX4E, 3 SBC, Champion Cow and all breeds Champion Adelaide Royal. This family combined the lot. Chrysanthemum has created through her progeny 14 EX descendants.

PARINGA'S FOUNDATION

"H" Family founded in 1970 with Lesdale Lucky Heidi (Imp NZ) EX, 6 SBC

Mum and Dad headed to NZ, for the famous Lesdale Dispersal of the legend "Merton Leslie". They purchased 2 head in Heidi and Lesdale TB Lulu EX2E. Heidi was the sale topper at \$3,000. Both cows were heavy incalf, so Merton decided to travel with them on the boat. Lulu calved on the trip over, Merton had forgotten to take any calcium, so with his expertise, manage to keep Lulu from going down. I will never, ever, forget seeing these 2 cows, when I got home from my chemist shop job.

They were both in a grass yard eating hay, both the same colour, with these huge muzzles, and amazing capacity. It was mid July 1970, and Dad dispersed in June 1971. Garraty's purchased Lulu, and Phil Malcolm and I purchased Heidi for an Australasian record price of \$6,100. Heidi had 7 daughters in Australia all VG. Lesdale cattle were famed for longevity, a credit to Merton. Lulu lived to 19 and Heidi lived to 18. Heidi has created 22 EX descendants in Australia.

"N" Family founded in 1988 with Swamplands Black Petal EX, 4 SBC, 2xEP, 2xM, 1xP , Life2

I was heading down to judge at Traralgon Show on the Saturday, and Gerry Geary's Swamplands Sale at Koo-Wee-Rup, was on the Friday October 28th 1988. As I walked in, the sale was already underway, Brownny was in the ring, before I sat down he came over and said, go and have a look at Lot 42. Came back in, and he said what did I think, I said she is a beauty!

So began a partnership with Brownny's daughter Alannah. We had a lot of fun with her, after a few years I bought Alannah's share out. Petal had 13 progeny, only 4 heifers, ET played a part in this. Petal created, along with her dam, and the next 4 generations down, only the 2nd 6 generations of Australian Excellents. Petal has also created 11 EX descendants.

Paringa's Final idw...

What a day it was

Reserve Champion

Paringa Braxton Parry EX91-2E

*Reserve Champion cow IDW19
Along with Grand Champion cow IDW17,

PARINGA WINDBROOK ADELAIDE, VG87 on

1st lact. Both owned by Staley family.

Comments:

Alanna has been the face of Paringa Holsteins Facebook page since she triumphed at IDW 2019. I cannot help but get excited about her. Hard to imagine Alanna not making an udder, with her background, and the way she looks, then she will get more exciting. You **cannot** get more depth of pedigree. To have achieved 15 GENERATIONS OF EXCELLENTS, is a near impossible mission, and it has taken decades to achieve. I am extremely proud, Alanna carries the Paringa prefix. Alanna's dam Paringa Windbrook Alcatraz, was purchased in our Stage 1 Sale for \$7,200, by the Staley and Jones families. She was a GP82 heifer, now a VG87 2nd calver. I believe she will go all the way. Staley's are so happy with Alcatraz, they returned and purchased her full sister, Paringa Windbrook Adelaide in our Stage 3 Sale for \$5,100. She has gone VG87 as a heifer. Both Alcatraz, and Adelaide have welded on udders, just beautiful. Mark Patullo saw Adelaide recently, and made the comment, she is one of the best Windbrook's he has seen.

Backed by 15 Excellent and 2 VG dams. Due: 14th August to sexed King Doc, PTIC to this joining.

Comments:

Grace is the only G family to sell today. She is an ideal specimen of this cow family. She has room for a high wide rear udder, the same as her dam's. Her teat shape, placement and direction are looking ideal, as I write these comments. She will definitely know how to work. They have never been big in numbers, but have always made their presence known. Grace's two closest dams are 12,000 litre cows. The foundation cow Kingston Princess Grace was the highest ever 24 hour milk cow at old Paringa with 118 lbs., then her daughter Paringa PF Gaylene was the top production cow in Victoria 1978/79.

Backed by 6 VG., 1 GP and 1 G. dam

Due: 14th August to sexed Rager, then pastured with Paringa Nash Goldchip

4th Dam: Paringa Warden Glo, VG88, STP

5-7 9214 306 3.3 319 3.5 305 97

5th Dam: Paringa Majestic Gentle, VG85, STP, 4 SBC

1 EX and 1 VG88 dtrs.

6th Dam: Wiabuna Recount Geisha, VG89, STP, 6 SBC

Champion Cow and All Breeds
Camperdown Fair 1982. Champion Cow
Cobram Feature Show 1985. Champion
Cow Camperdown Fair 1986 etc.

7th Dam: Paringa PF Gaylene, GP81, SBC

7yrs 23860 4.3 983 lbs 300

Top cow in Victoria 1978-79.

8th Dam: Kingston Princess Grace

Milked at 118lbs milk daily, highest at that
time at Paringa.

PARINGA MAJESTIC GENTLE, VG85,
STP, 4 SBC
5th Dam of Lot 2.

WIABUNA RECOUNT GEISHA, VG89,
STP, 6 SBC
6th Dam of Lot 2.

Comments:

Hope displays what the Heidi's are all about, "Dairy Strength". If you ever wanted a Heidi, don't leave here without her. In my opinion, right up the top. Without having milked Byway's, can only speak on what I see. I certainly like this group, they are long heifers with style to burn, wonderful clean dairy bone to them. Tony Hayes, Llandoverly Illawarras and Holsteins purchased Hatty in our Stage 1 sale. She has completed a lactation for him: 4-10 10020 331 3.3 346 3.5 305 PI 104.

Paringa Denison Hilda VG86 – 2 out of first 3 lactations over 13,000 litres.

Paringa Igniter Hussy VG85 sold into a commercial herd in our 2010 sale.

Paringa Boss Hailo VG86 5-8 14390 with 1032 kgs milk solids. Backed by 3 EX and 7 VG dams.

Due: 14th August to sexed King Doc or sexed Tatoo, then pastured with Paringa Nash Goldchip. We were chatting, and the AI man forgot which bull he had. I will pay to get the DNA of this heifer calf

4th Dam: Paringa Boss Hailo, VG86, 3 SBC, 2xM, 2xF, 2xP

Comments:

Wynne is a Beemer and a good one. Displaying so much width in her rear udder, width to her chest, walks lovely and wide on her rear legs. She has angle and length to her rump. The W family, I call a newer family at Paringa, only established in the last 30 years, what a family it has turned out to be. All the way they have been youthful cows, no matter what age they reached. Wynne's dam and 2nd dam are 13,000 litre cows, her 3rd and 4th dam are 12,000 litre cows. Really a heifer not to home without, easy for me to say, I write from the heart, you're the people spending the money. Backed by 1 EX and 7 VG dams.
Due: 4th September to Tatoo, then pastured with Paringa Nash Goldchip

Comments:

Applepie is huge, not a course bone in her body. She has width and depth to her chest, spirit level straight on top, width of rump and pin, shaping up nicely in the udder. Quite outstanding, can't make them much better! Then get onto her pedigree, no doubt one of the world's best cow families. Avonlea purchased Destroy Apple, in our Stage 1 Sale, for equal top price \$17,000. She has just gone EX, fresh on third calf. He tells me she has just calved in on her 3rd calf, was too fresh for the Winter Fair last month. Has completed a lactation at Avonlea:

3-4	12445	386	3.1	458	3.7	299	PI 109

Comments:

Aniseed displays width and strength throughout. Her sire is a Favre/Shamrock bull. Aniseed's dam was a beautiful heifer, Classified GP83 only a couple of days fresh, to me, she had a lot of potential. Almond was purchased by Luke Webb, in our Stage 1 Sale. Almond is a Maternal sister to the dam of "Paringa Solomon Applepie". Most probably, a cheap way to break into the Apple family. Backed by 8 EX and 2 GP dams. Due: 14th August to sexed Tattoo, then pastured with Paringa Nash Goldchip

Comments:

Macy has a soft spot with me, I love her, unfortunately has not held to early service and has just been rejoined. Some cows come and go, but I will never forget milking Mia, she was milking 62 litres on her 2nd calf, out of an amazing udder, when we sold her in our Stage 1 Sale, to Ross and Jade Easterbrook. Old Mimic had the grunt of a big mac truck, every worker I had, liked her, maybe cos of her nature! She did over 100,000 litres in 7 lactations. Macy is well and truly worth the wait. I cannot emphasize this cow family enough, if any of you don't have an M family, I believe, one is a must. Longevity over many generations, nature, ability to have heifer calves, like I said on one of the other M comments, they are made for profit! Backed by 1 EX., 7 VG and 1 GP dam, with 38 Stars.

Due: 24th March to sexed Pharo, then pastured with Paringa Nikko Gillespy

Comments:

Matilda is the baby of the sale, she is tall and long, balanced, excellent legs and feet, she displays width. I think someone could have some fun with her. Her dam was not unlike Opa, on her first lactation. When they walked into the dairy, both were black, had snug udders with 4 beautiful black teats. Ross and Jade Easterbrook purchased Melba in the Stage 3 Sale. Neville and Michele Staley purchased Marjie, in our Stage 2 Sale. Brad and Janelle Somerville purchased Marnie, in the Stage 1 Sale, all good judges and keen breeders. Backed by 1 Ex., 9 VG and 2 GP dams. Due: 15th April to Paringa Nash Goldchip, then pasture with him from 10th July.

4th Dam: Paringa Edlin Memory, VG85, 1xM, 1xF, 1xP

2 EX and 1 VG dtrs.

Comments:

Optima, because of her dam, I am excited. She has depth of fore rib, width of chest, still displays a textured V shape brisket from front on. She is angular, with depth of fore and rear rib, incredibly deep flanked heifer. Super flat leg bone. As I write this, she is looking good in her udder development. Opa, was not the fancy show heifer. Opa has put an incredibly satisfying finish to my life as a Holstein breeder. Don't get any better than Opa and her family. Optima is half broken in. She has been flushed once for 2 embryos. Backed by 3 EX and 6 VG dams. Due: 4th September to Tatoo, then pastured with Paringa Nash Goldchip.

Comments:

Opal is a dead ringer to Opa at the same age, she makes me think of what could be!

I am indeed proud to give someone the joy that she may bring, in whatever shape or form. What a PET she is! Opal has everything in her makeup to be a great one. She is half broken in, and she has been flushed once for 6 embryos. Don't forget about her cow family, you can achieve greatness here.

Backed by 3 EX and 6 VG dams.

Due: 20th March, maybe for the Winter Fair, to sexed Doorman, then pastured with Paringa Nash Goldchip from 10th July.

Comments:

Buttergirl's 2 nearest dams are 13,000 litre cows. Right back to the foundation Butter, in Brundee Buttercup Pride, these cows have been a delight to work with, their texture of udder, free milking, temperament are right. Buttergirl is loaded with capacity, with her width and spring. She is balanced and has the typical Butter rump structure. She is a good Butter, for anyone wanting to get into the Butters. Butter's have excelled throughout Australia, Fairvale is one worth a mention.

Backed by 1 EX., 7 VG and 1 GP dam, 2 Champion Cows Melbourne Royal Show and five generations of first prize winners at Melbourne Royal.

Due: 4th September to Pharo, then pastured with Paringa Nash Goldchip.

Comments:

Baffle's dam was an 11,600 litre J-2, she was purchased by our herdsman (Josh Morris). Josh knew the ones he enjoyed milking, he was buying on a tight budget, bought very wisely. Not hard to pick the Amabain daughters, they have strength of front ends, and their angle and width of rumps are a dead giveaway. I believe that extra strength is coming from the Favre bull. They are made to last.

Backed by 1 EX, 5 VG and 2 GP dams, 2 Champion Cows and five generations of first prize winners at Melbourne Royal. Due: 4th September to Pharo, then pastured with Paringa Zoomer Octane.

4th Dam: Paringa Lincoln Belinda-ET, VG87, STP, 5 SBC. – See Lot 21.

PARINGA MATTADOR BABY, VG 86, 10 SBC

Purchased by Hayden Stephens for \$8,000 in a Paringa sale in the mid 80's. Hayden then sold a daughter to Fairvale in Paramount Inspiration Butter in 1990.

She was the Foundation Butter at Fairvale EX-5E and ended up a 25 SBC. Maternal sister to 4th Dam of Lot 22, 5th Dam of Lot 20, 6th Dam of Lot 21.

4 gens SBC.

Comments:

Foxie is a very, very special heifer for me. She is so well made, she has spring and depth of rib, the muzzle and chest width, to be able to produce loads of milk. Looks really nice underneath as well. Paringa has always been about production, as number one. Foxie's dam is the most incredible cow I have ever milked. The most milk in Paringa's 75 year history. Faux got in calf at first service each year. The width of udder, and her teat size and placement were amazing. This is Paringa's oldest cow family, started in the early 1950's, they are as honest as the day is long. Kick myself, that I never took a photo of Faux.

Her maternal sister Paringa Garter Fosh GP84 heifer, 2-1 10053 302 3.0 358 3.6 305 PI 106

Backed by 3 VG and 3 GP dams, the 7th dam was before classification, this proves the longevity this family has, only 7 generations since the early 50's.

Due: 5th September to Tatoo, then pastured with Paringa Zoomer Octane.

4th Dam: Wiabuna Kriss Favourite, VG85, STP, 3 SBC

Full sister to Langwillow Linmack Helena, VG88, 4 SBC. Champion Cow Pakenham Feature 1978, Bunyip Feature 1979, SE of SA Fair 1979 etc.

Comments:

Faye is a lovely Nikko. She has an angular deep rib cage, has her mum's muzzle. Got to make into a great cow, won't be a sale topper. Faye is out of this ever reliable, oldest cow family at Paringa. Fonzie was always a favourite with herdsman Josh Morris, he ended up buying her in the stage 1 Sale. Fonzie was a big PI cow, she was by far our best Million daughter. Backed by 5 VG and 3 GP dams.

Due: 8th September to Pharo, then pastured with Paringa Zoomer Octane.

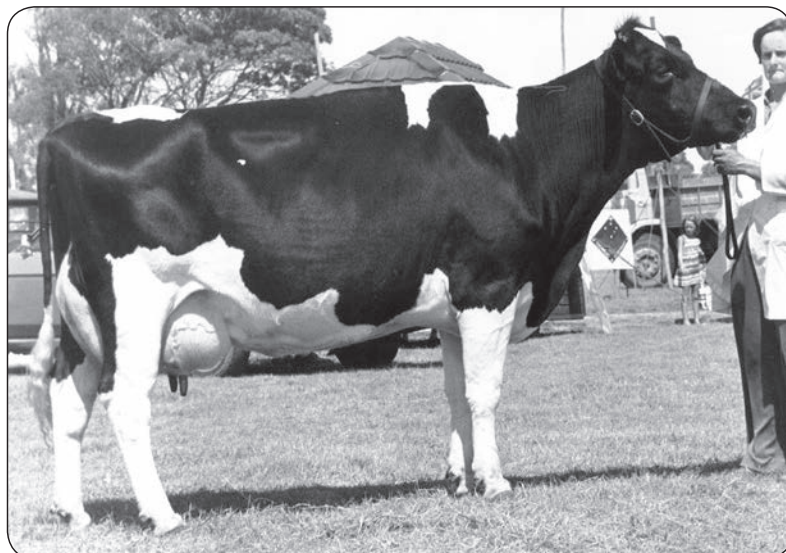

5th Dam: Paringa Mattador Foxie, VG89, STP, 2 SBC. – See Lot 23.

Comments:

Euri, is a big strong heifer, terrific length right through. When Josh Morris worked for me, he picked this California bull out, to use over a couple of red carriers, hence Euri's mating to the red bull Rager. Euri has some of the breeds big milk bulls in her sire stack Bolton/Shottle/Mandel/Inspiration. Her 3rd dam Mandel Ellen EX91(4E) remains one of my all time favourites. Elation's twin sister Paringa Bolton Elite VG86, did a tad short of 14,000 litres. Backed by 2 EX., 4 VG and 2 GP dams.

Due: 5th September to sexed Rager, then pastured with Paringa Zoomer Octane.

Comments:

Express is a smart Solomon daughter, sharp shoulder, long of her body, deep flanked heifer with a clean thigh. Her dam was classified GP84 as a heifer, when she sold to Belinda Harris, in our Stage 1 sale. Excitement is a maternal sister, to one of the top Fever's that sold in our Stage 1 sale, in Paringa Fever Evenne VG86, she sold to the McVilly Family. Express is backed by a mighty line of dams.

Backed by 2 EX., 5VG and 3 GP dams.

Due: 14th August to sexed Tatoo, then pastured with Paringa Nash Goldchip

**PARINGA FEVER EVENNE, VG86**

Comments:

Eveline is a tall heifer displaying excellent dairy qualities, silky skin. A quality heifer. She goes back to Shona through her Cascade daughter, Paringa Cascade Elaine VG87 2 SBC. My herdsman Josh Morris, purchased a number of cows off me privately, during his 3 years at Paringa. Nike Eveleen being one. We both loved Windstorm Ellymay, sadly never met the classifier, both agreed most probably a VG heifer. Avonlea bought a daughter of Grandprix Elbie's maternal sister, in our Stage 2 sale. She is Paringa Beemer Ego went GP84 and produced on first calf

Dam of Paringa Braxton Parry, EX91-2E. Grand Champion IDW 2017. 1st Aged Cow and Res Champion Cow IDW 2019.

Comments:

Pendant is a big wide heifer, with a wonderful blend of Dairy Strength. She showed at the Victorian Winter Fair last month, placed 3rd 2 years dry. Erin Ferguson told me to say, she broke Pendant in, in about 20 mins, her temperament is excellent. Pendant's dam, is a cow, I got so much pleasure, seeing her walk into the dairy, always loaded with milk, and so quiet, obviously passed her placid temperament onto Pendant. Pendant's 5th dam, is a full sister to Vandyk-K Integrity Paradise EX96, and COW OF THE WORLD 2002. Pendant's 3rd dam's full sister, is the dam of Paringa Braxton Parry EX91(2E), Grand Champion IDW 2017 and Reserve Champion Cow IDW 2019. Indeed a rare achievement. Congratulations to Elm Banks and Ardyllbar. Kellie organized the importation of the original embryos, we have had so much joy working with this world famous family. Backed by EX92, EX90, EX94 and 3 VG dams. Due: 23rd September to Paringa Nikko Gillespy.

4th Dam: Vandyk-K Integrity Passion, EX92

Comments:

Cher is getting better all the time, has gone from a plainish little calf, to a heifer, with not a lot you would change. Has no chance of not making an udder, both sides of her pedigree tell you that. This branch of the C family, are going from strength to strength. Cher's 3 nearest dams are 12,000 litres or better. Cher has 3 maternal sisters, 2 at Staley's and 1 at Jones (neighbours).

Comments:

Cass is a classy heifer, width throughout, ideal legs and feet, lovely head and muzzle, strong loin, hard to fault. Her dam is a 15,472 litre cow, her first 4 lacts Pl'd at 103,110,109,104. Casiass is now living at Aylesbury Holsteins. Udders have been the strong feature of the Chrysanthemum family, ever since we have had them. Cass being a Beemer/Chrysanthemum can't go wrong. Backed by 1 EX., 9 VG and 1 GP dam, also 2 Reserve All-Australians.

Due: 7th September to sexed Tatoo, then pastured with Paringa Zoomer Octane.

Comments:

Where do I start, if you're 40 years or younger, may not have heard of Linmack Kriss King. He was the first bull to come to Australia after a long layoff of imported semen, was an exciting time for the Friesian breed. I would say, almost every breeder in the country used him, over every kind of cow good, bad or whatever. I believe Linmack did more for the breed, than any other individual, Male or Female in Australia in my lifetime. Neil Holcombe rang me, and said he had found some Linmack, and wanted me to have it. I thought, what am I going to do with it, probably didn't have to think long, knowing 3 of the all time greats, Paringa has bred and worked with, were Linmack Kriss King's. So with my 5 doses I set out to breed a Kriss Butter, Kriss Shona or a Linmack Supreme. Remembering this semen is 50 years old. My Butter and Shona cows returned and my "S" cow held. So I have my new generation Paringa Linmack Supreme, whose 9th dam was Meadow Park Linmack Supreme. MPL Supreme's dam was Paringa Squire Supreme. MPL Supreme won 46 Championship ribbons, and numerous Best Udder awards, around the big show circuit we used to do. The new Linmack Supreme is not tall, neither was MPL Supreme. She is long, balanced, wonderful depth and openness to her fore and rear rib. If she makes a MPL Supreme udder, just forget genomics for a little while, you will have an incredible foundation, for a new family. Brad and Janelle Somerville bought Sophia in our Stage 1 Sale, and I quote Brad "Sophia is now VG87, and has become a real favourite, with her huge muzzle, great width and beautiful nature". Backed by 8 VG and 3 GP dams. Due: 4th September to Pharo, then pastured with Paringa Zoomer Octane.

MEADOW PARK LINMACK SUPREME, VG89, STP, 8 SBC

Winner of 46 Championship ribbons. Supreme, along with a daughter and a grand daughter, all won their class the same day at Melbourne Royal.
9th Dam, and a Paternal sister of Lot 41.

**WIABUNA KRISS BUTTER, EX2E, STP, 10 SBC**

Winner of many Championships, including Champion Cow Melbourne Royal 1987. Paternal sister to Lot 41.

**WIABUNA KRISS SHONA, EX3E, 18 SBC**

Winner of many Championships, including Champion Cow Melbourne Royal 1988. Paternal sister to Lot 41.

Comments:

Nelly is another Byway, and fairly typical of the ones we have here. I can see a good future here. She has a lovely long milky head, which in turn gives her the long neck, long body, long hip to pin. A quality heifer. Her dam was a good young cow, very good in the dairy, so soft and silky, just a stress free unit. She sold into a commercial herd, at our Stage 1 Sale. Backed by 4 EX., 3 VG and 2 GP dams.

Due: 4th September to Tatoo, then pastured with Paringa Zoomer Octane.

4th Dam: Paringa Mustang Nairobi, VG85

5th Dam: Paringa Igniter Naomi, VG86, 2 SBC

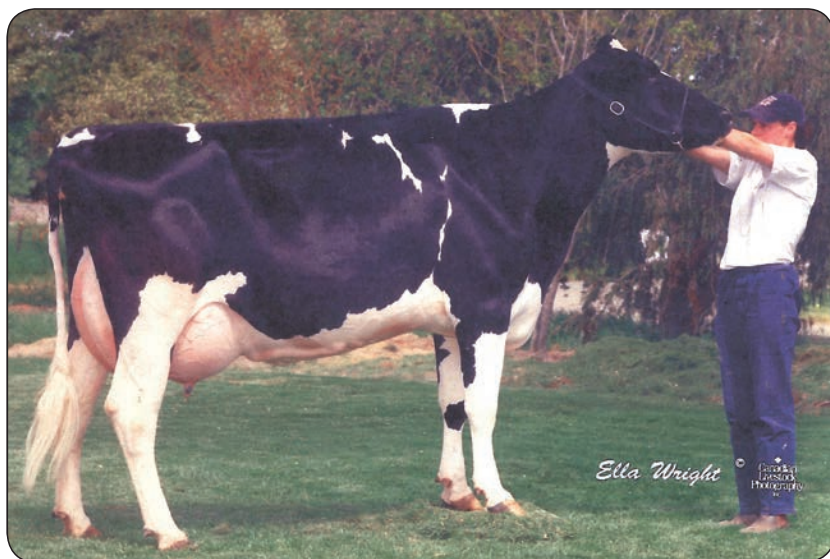

6th Dam: Paringa Blackstar Nicky, EX4E, STP, 5 SBC, 2xM, 2xP, Life (3)

9-3 14290 472 3.3 450 3.2 305 127

9L's 105913 3373 3.2 3549 3.4

Jnr Champ Mt Gambier Fair 1995. 2nd 3yrs in milk Sydney Royal 1998. Champion Cow and All Breeds Shepparton National 1997. 1st 4yrs in milk Melbourne Royal 1997. 2nd 4yrs in milk IDW 1998.

7th Dam: Paringa Petals Perfection, EX, STP, 6 SBC
See Lot 42.

Comments:

Zayna is one, I am indeed happy, that she carries the Paringa name. She is a heifer of high type, deep open ribbed heifer, strong through the top, with a lovely rump, and most of all, looks superb in udder formation. I reckon, if you're after show potential, she could be what you're looking for. Check her out! Zayna's 2nd and 3rd dams, are very special cows in Paringa's History. She has a VG87 maternal sister: Paringa Dempsey Zane girl, 3-3 12161 392 3.2 419 3.5 305

Backed by 2 EX., 5 VG and 2 GP dams.

Comments:

Zinia is not a big heifer in stature, displays quality and texture throughout. I am sure will do a good job wherever she goes. Have had some really good reports, on the Nikko daughters. Zinia's 4th dam was a real favourite, got buried on the farm. Scott and Jade Sieben purchased Ziska in our Stage 1 Sale, she has produced for them 2-5 8428 275 3.3 346 4.1 305 Backed by 2 EX., 5 VG and 3 GP dams. Due: 6th September to Pharo, then pastured with Paringa Zoomer Octane.

Comments:

Zombre is the only Diamondback in this sale. She is a Red/Black heifer, as was her dam. Unfortunately she has a blind eye. She is displaying the makings of a super udder. Her 4 direct dams are all cows you would enjoy milking every day, trouble free. Zikes was purchased by the Jones family in our Stage 1 Sale for \$5,200. Just after arriving home, she placed in their On Farm Challenge. Has completed a lactation at Cypress Grove: 4-8 9292 319 3.4 371 4.0 305

Zikes maternal sister is Paringa Super Zabrina VG88, her 4 lactations have PI's of 102, 109, 103, 109.

Backed by 7 VG and 2 GP dams.

Due: 14th August to sexed Rager, then pastured with Paringa Nash Goldchip.

4th Dam: Paringa Perfection Zazz, VG88, STP, 4 SBC

5th Dam: Paringa Pete Zandria, VG87, 5 SBC
See Lot 46.

Comments:

Zuanne is one of two Callens to sell today. She is a silky textured heifer, open of her rib, looks like she will do, what she is made to do very easily. Zuanne is backed by a wonderful group of dams, 6 generations of silky black cows. Zabrina, Zowie, Zsazsa and Zazz are not tall cows, cows with wonderful mobility, all cows with ideal teat size, placement and direction. Good cows to have around. Zenka was purchased by Ferguson Farms in our Stage 1 Sale, she has completed a lactation for them:

2-0 7283 230 3.2 244 3.4 305

Backed by 7 VG and 3 GP dams. Due: 14th August to sexed Tatoo, then pastured with Paringa Nash Goldchip.

Comments:

Zumba is a pretty black heifer. There are only 2 California daughters in the sale, both are very correct heifers. You won't get a heifer with a straighter top line, she has strength to burn. She has a wonderful temperament, great spacing between fore and rear teats. Zumba is backed by two 12,000 litre dams, her 5 nearest dams, have all been as soft as silk to milk. Backed by 7 VG dams and 2 GP dams.

Due: 14th August to sexed Rager, then pastured with Paringa Nash Goldchip.

4th Dam: Paringa Perfection Zazz, VG88, STP, 4 SBC – See Lot 52.

Comments:

Tamica is structurally very correct, tall, long heifer, just needs the udder to have a real good one. Tamica's 5th dam Raivue Warden Tamara, was imported live into Australia. She is a direct descendant of the cow, known simply as "The White Cow", in Balsam Brae Pluto Sovereign. She is the cow, the incredible "Roybrook" herd was built around. Tamara is the most money ever paid for a cow by Paringa, at \$25,000. Tinkerbell has a full sister who went VG86 on 1st calf, Tinkerbell herself was sold into a commercial herd in our Stage 1 Sale. Backed by 3 EX., 2 VG and 3 GP dams.

Due: 14th August to sexed King Doc, then pastured with Paringa Zoomer Octane.

Comments:

Lustre has a beautiful maternal sister, in Paringa Beemer Lilah. Lilah sold to Courtney Buchanan in our Stage 3 Sale for \$4000. She has gone onto classify VG85. Courtney took her to IDW this year, to place 6th J-2 in milk, and now she is entered in the All-Australian competition. A credit to Courtney on selecting Lilah, and to bring her out at IDW, looking so good. She also got a Pharo heifer calf. Lustre and Lilah are backed by the super Australasian cow family for decades in the Tahora "L's". Lustre will no doubt start you on this family with the heifer calf she is carrying. Backed by 4 EX., 6 VG and 2 GP dams.

Due: 6th September to sexed Rager, then pastured with Paringa Zoomer Octane.

4th Dam: Paringa Manhattan Licorice, VG87, 1xM, 1xF, 1xP

Comments:

Kellie is blended nicely neck to shoulder, lovely strong top through the loin, finishes with a good rump. Pin height, perfect for a McCutchen. Kellie's maternal sister Paringa Nikko Klue, was just a super quality heifer, that sold in our Stage 3 Sale to Adam and Simone Ross. Kellie is the only heifer today, out of our branch, of the Avonlea Connie's, there have been some famous Connie's over the Holstein journey. This family has served us well at Paringa. Gillespie Keely was one of 2 favourites of my herldady "Chrissy". Keely's temperament would get 10/10, she sold into a commercial herd. Backed by 1 EX., 6 VG and 1 GP dam. Due: 14th August to sexed Tatoo, then pastured with Paringa Nash Goldchip.

4th Dam: Paringa Inspiration Kellie, VG87, STP, 5 SBC – 5 VG dtrs.

5th Dam: Avonlea Hilltopper Cristy-ET, VG87 2 dtrs 1 VG89, 1 VG87.

Her maternal sister Champ Cow Melbourne Royal 1989.

6th Dam: Avonlea Marquis Connie, VG88, 20 SBC Twice Res All Australian. Dam of 2 EX and 17 VG dtrs.

7th Dam: Meadow Bank Linmack Connie 2nd, VG88, SBC 1st 4yrs in milk Melbourne Royal.

Comments:

ARAYA, Firstly she is named after our ever reliable Ray, as she was born on his birthday, her name had to start with A. Check out her sire stack, Bradnick/Baxter/Allen/Storm/Vale/Skybuck/Boston, then look at Mum, probably tells us why Araya is like she is. She has that exact balance and strength, leaves little to want for. Backed by 1 EX., 4 VG and 2 GP dams.

Due: 14th September to Tatoo, then pastured with Paringa Nash Goldchip.

4th Dam: Paringa Vale Angela, VG87, 3 SBC, 1xM, 1xP

Comments:

Amber is a lovely quality Beemer, backed by 4 generations of 12,000 litres. Her dam Paringa Stanley Cup Aliska, had an udder to die for, used to love seeing that rear udder come into the dairy. Aliska was purchased by Hillview Park in our Stage 1 sale. This is a good heifer, I recommend her. Backed by 4 VG and 2 GP dams.

Due: 4th September to Tatoo, then pastured with Paringa Zoomer Octane.

4th Dam: Paringa Skybuck Actress, VG86, 4 SBC
See Lot 60.

PARINGA STANLEYCUP ALISKA, VG85

Purchased by Hillview Park Holsteins
in our Stage 1 Sale.
Dam of Lot 61.

PARINGA DIAMONDBACK ASHLYN

Purchased by Eloora Pastoral for \$2200.

Ian sent me this photo and said,
"I like this young heifer. She'll never be a
big cow, but she will last for years. Should
breed well, I would think"
Family Member.

Comments:

ANJA is not a big heifer, long clean neck, sharp over the shoulder with excellent legs and feet. She will do what she is made to do, that is to produce milk for many years. Her dam was sold in our Stage 1 sale, she was a VG heifer and had great potential, sold into a commercial herd for \$3000. Her 3rd dam Amali, won the 2 year old On Farm Challenge 2007 (57 entries). Backed by 6 VG and 1 GP dam. Due: 4th September to Pharo, then pastured with Paringa Zoomer Octane.

4th Dam: Paringa Vale Angela, VG87. 3 SBC. See Lot 60.

See Lot 16.

Comments:

Museum's Dam Paringa StanleyCup Monica VG89, was an ideal cow in the dairy, Ex92 Mammary, you would not want to change her teat size, shape, direction and placement. Her dam is a big powerful Damion. Monica has 2 Maternal sisters in:

1. Paringa Fever Melba GP84 Heifer

1-11 10454 343 3.3 387 3.7 305 PI 127

2. Paringa Art Mariah GP83 Heifer fresh a couple of days.

Backed by a Cow Family, that are made for profit.

PARINGA STANLEYCUP MONICA, VG89, EX 92 MAMM

Purchased by Declan Patten in our Stage 1 Sale for \$4,700.

She was doing 61.2 litres on sale day. Dam of Lot 68.
